

Alton Road

July 28, 1902

Hill to Harris, reply to July 28, 1902 letter

Does not agree with Harris' suggestions. How ~~then~~
then are we to get our cheap coal from Illinois
If it "is to be supplied from the South, we must
have access to the mines from the low grade
river road with the shortest mileage possible.
...The Jacksonville-Southeastern will be of
very little use in this connection."
