

Andrews, Christopher C.

July 27, 1900

Hill to Robert Bacon

Encloses description of a trip from Deer River to Rainy River by way of the Big Fork, just sent me by request of Gen. Andrews. There is practically no saw timber North of 20 or 25 miles from Bemidji on the proposed line, and the country is entirely unsettled except a few squawmen or timber cruisers. Better build just a logging road.
