

Angus, Richard B.

April 3, 1883

Hill to Angus

The construction last year of the Canadian Pacific Road cost enormously. There should be a statement from time to time telling what the work is costing. When Van Horne passed here on Saturday I talked with him about a basis upon which both our companies would work & told him it would be necessary to have this done by the time the C.P. would take over the Thunder Bay Branch."I am sorry to say that Mr. Van Hornes reply was not such as would lead us to expect any reasonable or fair action on his part. His reply was substantially- that he considered

Winnipeg a local station on the Can. Pac. Ry
and that we had no more right to look for a
rate to Winnipeg than to any other point &c."
Other strange actions & decisions of Van Horne
in re the relationship between the two roads.
