

Baltimore & Ohio Road

September 7, 1899

Hill to Jacob Schiff carbon and letterbook

A long, detailed letter outlining ~~in~~^{ing} what needs to be done to improve the B & O road: first a competent survey by an experienced engineer, such as the Great Northern's Darling. A thorough job is needed, perhaps requiring five yrs. altogether [similar letter of 6th to Wm. Salomon chairman of board of B. & O.]
