

Belt Mountains, Mont.-Coal      Nov. 8, 1902

Carbon.    [Toomey] to W. G. Conrad.

"Referring to our conversation of Sunday last, I beg to say that I spoke to Mr. Hill yesterday in regard to the Belt coal proposition, and he said he was very much obliged to you indeed for your kindness in this matter but, owing to the fact that he expected to get all the coal required for the Great Northern Railway north of the International boundary line, he did not care to invest any more money in the Belt Mountains."
