

Brackett, George A.

January 4, 1898

George A. Brackett to Jas. J. Hill.

Writes from Washington, D. C. where he is making final filings and getting a title to the land in connection with the wagon road [in Alaska].

States that "the new discovery in Atlen [Alaska]" is beyond anything that you can imagine. I have with me several hundred dollars of specimen of the gold that I shall be glad to show you on my return."
