

Broadwater, Charles A. September 30, 1884

Hill to Broadwater

Will see Newberry tomorrow. H. Brown^{et} takes strong ground against Sand Coulee. "I think he is mistaken as to the field but you will remember what I said about the "bone" in the Culbertson opening. I think it will be necessary to open the vein in 40 or 50 feet to get a fair sample of the coal."

JJH LetterBook, 5/30 /84 - 10/18/84, p. 630
