W.L.Bull to James J. Hill.

Is glad that Mohler can see Hill in St. Paul on the way West to explain anything omitted in correspondence. Believed the [Northern Pacific] people want to establish a claim to the Nez Perces and Camas Prairie country. States that "we must assert our rights to be in that district also, because it is undoubtedly among the very best if not absolutely superior to anything else in that country." Hopes the N.P. people will realize "we are in earnest."

General Correspondence by date.
