

Canadian Pacific Road

January 31, 1883

J.S. Kennedy to Hill

"Lord Lorne arrived here from Washington yesterday morning and left for Ottawa last night. I called on him at his Hotel.... and had quite a long chat with him. He takes a great interest in the Canadian Pacific Ry and inquired particularly as to all that was going on. He wants particularly to know what kind of a route Major Rogers had found through the Mountains but I could not tell him."
