J.S. Kennedy to Hill

Re meeting with Stephen, Angus, McIntyre, Abbott and Van Horne. We agreed that your 9,509 shares of CPR stock, placed by you at Stephen's disposal, should be sold at a lesser price ($45\frac{1}{2}$) than the one you named. Stephen, Angus, and McIntyre contributed a portion of their stock at 42% and thus made the average price as above, 45 and $45\frac{1}{2}$ %. We have now got, amongst others, Messrs Drexel, Morgan & Co., and Kuhn, Loeb & Co. There are other prominent banking firms here that we should interest, if possible.
