

Colonization in Minn.

July 3, 1912

A. P. Morten to James J. Hill.

"The colonization question is now considered of very great importance by the Swedish Lutheran Augustana Synod. It has been discussed in our church papers, by the Home Mission Board, at conference meetings, and last month by the whole synod at its meeting in Chicago. The question is forced by the scattering of our people all over. Many go to Canada."

States that he has colonized in Superior, Wis., and also in connection with the St. Paul & Duluth Road. General corres. by date
