

Coster, C. H.

May 22, 1899

C. H. Coster to J. J. Hill.

Inquires about a survey alledged to have been made recently in the state of Washington. Has heard that the survey closely follows the route of the Northern Pacific Road's Spokane and Seattle R.R.

Hopes the survey "is nothing but an expansion of pent-up energy on the part of some one zealous engineering force."
