Hill to Marcus Dailey [sic], Butte, Montana

Thanks for visiting your works at Anaconda. Since my return Col. Dodge reports a very good line between 10 Mile and Helena... I have asked Broadwater to have our engineer go over a line from Butte to Anaconda this fall. "Our grading as far west as [Fort] Buford and our lines run west of there to the Milk River. We expect to have our track thro' from St. Paul to the Great Falls by the 15th or 20th of August next & I hope to Helena by the 15th of October which would give us time to reach Butte by December 1 of next year."
