

Davey, Captain [J.M.] October 5, 1903

Carbon. [Toomey] to R. N. Dickman.

"If you could spare the time I think it would be well to visit the property at Valley, as I really do not know just what we are accomplishing in that locality, and I must confess if Mr. Hill should ask for some information in connection with our investment at Valley I could not answer him very intelligently. We are paying a good deal of money monthly, and Captain Davey does not give us a clear understanding of how the work is

progressing."
