

de Gernon, Vincent

February 5, 1890

de Gernon to JJH, General Correspondence

"I have had the nonor of addressing you on more than one occasion on matters relating to art, and though my success was not encouraging (owing doubtless to certain malign influences which is always abroad to everybody's detriment) I am decided to risk writing to you once more to request that, if the Art institution & library project comes to a successful issue, & there is question of appointing a director for the Art Management or any artistic post whatever, you will kindly grant me your support and indorsement [sic]."
