

Duluth, Minn. - Railroads      February 24, 1885

Hill to C. H. Graves, Duluth

Re elevators at Duluth. "Inasmuch as our Company does all its business over the St. Paul & Duluth Rd., & having no line of its own north of Hinckley ... there would be no reason why we should build from Hinckley to Duluth." [Pres. Smith of St. Paul & Duluth] "says that he will secure the track room for a yard on Rice's Point east of the joint track running down to the end of the point, making room for storage of say 300 cars."
