

Geddes, Alexander (Dr.) July 23, 1914

Carbon. "JJT" to Geddes

"I am directed by James J. Hill...to inform you that Mr. Hill would like you when you are importing live stock from England to purchase for his account and bring out for his North Oaks Farm, near St. Paul, ten good South Devon cows."

"The introduction of these cows in this section of the country should produce good results."
