

Hill, J.J. - Coal interests July 7, 1890

Hill to John Gordon, Buffalo

"Formerly I organized a Northwestern Fuel Company but in the year 1878 sold out my interest and have had nothing to do with the business since. Our Company is interested in the transportation ... of coal from Buffalo... This should cover a very large tonnage as we reach, in addition to St. Paul, Minneapolis, and Sioux City, all the intermediate points and as far west as Montana." What are McLeod's plans?
