Stephens to JJH, General Correspondence

Contains much detail regarding state of construction,  
esp. the problems with the copper work & slating  
contractor, Biegler of Chicago.

JJH to Louis Biegler [copy of telegram], General  
Correspondence

"Have purlins been shipped? If so when? Give car number, also give number and initial of car containing slate with date shipment and route. You are hereby notified to double present force on cornice. Much delay has occurred through your apathy and mismanagement. Am much dissatisfied with slow progress and shall hold you to strict account. Answer quickly."
