

Hindlip, Lord

Feb. 5, 1910

Hindlip to J.J.Hill

Had hoped to be able to visit the U. S. during the past year, but Parliament was in session so long, he was unable to come. Believes that "The result of Asquith's policy will have benefitted America and Canada very much in that it has caused millions of money to leave this country." [England] Asks Hill to tell him how conditions are in America, as he "cannot understand why markets are so panicky and why values are falling so."
