

Lake Minnetonka - Hotels      September 8, 1880

Hill to J.D. Huide, St. Louis

Re your letter of 7th re hotel at Lake Minnetonka. We will be glad to have you build a hotel at any point on the lake where it can be reached by the public. We have at the present time an architect visiting the large summer hotels in the East, and on his return we will commence the erection of a large hotel and a number of cottages. "I do not think there is any danger of too many good hotels at Minnetonka" and we will aid you but give no bonus.
