

Land scrip

March 8, 1878

Hill to Curtis and Earle, Washington, D.C.

"I have written the Hon. H.B. Strait who will aid you in any way he can." I think the local office will find as you wish, ... By the way, we are largely interested in a Railroad which has a large deficiency on Land Grant nearly 180,000 acres still unadjusted & I think you can do the work as well or better than the parties now in charge." Will call on you in a few day about this.
