

Ledoux, A.R.

June 22, 1893

A.R.Ledoux to James J. Hill.

Has had a pleasant trip to Great Falls, but was delayed by a bad head-on collision between trains 15 and 9 near Williston.

States that he has also "had the good fortune to see a good many Indians which greatly pleased the ladies."

Explains why he will be unable to see the "Maiden district" in which Mr. Armington is at work.

Has "spent the day  a thorough inspection of the B & M [Boston and Montana] works.

They are making copper very cheaply. I have the figures & know Hagen cannot meet them as far as treatment is concerned."

General correspondence by date
