

Litchfield, E. Darwin
Hill to J.S. Kennedy & Co.

June 8, 1878

We fully approve of building to Pembina & Alexandria this year, as it will settle many important points in connection with Nor. Pac. affairs & will no doubt aid us in Holland. Have telegram from Des Moines saying Edwin C. and E. Darwin Litchfield will be in St. Paul next Tuesday (11th). Re catching E. Darwin & putting him in jail, a wish often expressed by Kennedy. We suppose he will remain some days as their election occurs about the 13th & I notice that several of the Nor. Pac. directors including Wright & Stark will be 're at the same time.

It may be possible they propose some action together re Branch Line looking towards paying up the interest and trying to get some hold of the Road. I will go into this matter today with the attorneys and advise you.
