

Logging & lumbering - Minn. Aug. 18, 1899

Hill to Roswell Mill, pres. Milwaukee Road
Your lines' building agreements with ours west
of Minnesota."Conditions in the South West,
particularly in South Dakota, where all lumber
used must be brought in by rail is very burden-
some to our Company, and we must either find
a market for this lumber [elsewhere] through
our connections or on our own rails ... We are
not in any immediate hurry about extending our
railway in the South West; at the same time..."
we must find a market for the natural product
along the line of our railway if such a market
exists.
