5/27/11--6/10/16, p. 486

"Owing to the lateness of the season I have concluded to postpone the erection of the green house until next spring. As soon as the spring opens I will be glad to have you commence the work at once building the central portion and the north end first. This will enable us to use the present house until the other is finished when the contents can be transferred to the new building and allow the structure to be completed."
