

Manitoba Road - Cars

August 10, 1887

Hill to Haskell & Barker Car Co., Mich. City, Ind.

Our contract calls for delivery of the stock cars in August and the box cars by Oct. L. Our movement of cattle will commence soon & continue till, say 20th Oct., after which little use for these cars. Our movement of grain is heaviest between now and 15th to 20th Dec., and our cars are of more use to us during this time than during the balance of the twelve months.
