

Manitoba Road - Lands

May 16, 1889

Hill to H.Oyens & Zonen, Amsterdam, Holland

Reports on crops and the company's business affairs & prospects."The low prices of grain have to some extent retarded the sale of lands, but the prices are getting better, and we have been able to secure the adjustment of our Grant at

Washington, and have already secured deeds from the Government for over 500,000 acres with the expectation of about 300,000 more in the near future. This gives us a large amount of new lands to go into the market that have ^{not} heretofore been occupied or cultivated."

JJH LetterBook, 2/15/89, 10/23/89, p. 230
