

Mesabi Iron Range

August 22, 1903

J.S. Kennedy to Hill

"I saw a statement in the N.Y. Herald of yesterday ... that the Steel Corporation had bought or leased from some parties a number of mines on the Mesaba range that contained as estimated, 70,000,000 tons of Iron Ore and it was intimated that they had closed a trade with you some months ago for the mines owned or controlled by you. Is this so....?"
