

Minnesota - Forests

July 5, 1888

Hill to L.L.Baxter et al., Fergus Falls, Minn.

Re construction of a railroad from the south through Fergus Falls to the pine and hardwood timber region of the northwest. Last year we had a thorough and careful survey of that line made with a view to building, but the financial condition of the country is not likely to warrant building this year.

JJH LetterBook, 4/12/88 - 2/7/89, p. 186
