

Minnesota & Pacific R.R.

January 12, 1858

First report of the Chief Engineer to the President of the Minnesota & Pacific R.R. Co. presented January 12, 1858. [Reprinted on Oct. 1, 1901. This report was found with an account of the Minnesota & Pacific R.R. by S.P.Folsom, dated 3/18/98. The two documents may have been pulled from J.J.Hill's files for Pyle at the time Pyle was gathering material for Hill's biography, and may explain why they were found together]
