

Minnesota Transfer<sup>NY</sup> Company February 17, 1886

Hill to J. T. Odell, Pres. Minnesota Transfer

Acknowledging blue print of tracks at Minnesota Transfer yards. "Before the matter of tracks is definitely settled I would like to see you.. I am sure the present yard ... appears about as incomplete and crude as it is possible to get it... I would like to see a system of track introduced that would allow the business to be done as it should be with less than half the trouble and expense that now exists."
