

Montana - Settlers

March 14, 1908

Hill to Senator Thomas H. Carter of Montana
Re bill introduced in Congress to increase the
homestead acreage in Montana. Opposes "any act
ion to facilitate and widen the ease with which
the public domain can be secured," since there
is so little of it left. Recent survey shows
immigration this year is largely skipping across
Montana and going into the State of Washington.
But Washington has no advantage over Montana in
what it has to offer.
