

Montana Improvement Company March 23, 1886
(telegram)

Harrison to Hill from Washington (copy)

On 17th Van Wyck introduced a resolution to investigate the Montana Improvement Co. with power to send for persons or papers - unanimously agreed to by Senate. Hauser and Donner are here and much alarmed. This resolution judiciously pressed in my opinion can be used to stop all opposition to you as an investigation will hurt Northern Pacific grant seriously if their connection with the improvement company can be shown.
