

Natural Resources - Conservation Nov. 1901

JJH to St. Clair McKelway, Brooklyn

Your article on reclaiming West is the best & broadest treatment of the subject I have seen. The question is fairly before Congress whether the general government will preserve the public domain for homes for the people of the nation or whether a few years hence will see our surplus population seeking homes under another flag, while the lands which might have been preserved for them are held as ranges.

JJH NY LetterBook, 10/16/01 - 11/18/02, p.170
