

Nebraska ~~Times~~

July 1, 1901

J.N.Hill to his father absent on St.John Riv.

Gives a general report of events and conditions  
The present would be a good time to sell the  
Nebraska line because "it does not fit into  
the Great Northern system nor the Burlington,  
and is situated in a country that 5 out of 6  
years does not yield a good crop. It is also  
in a State whose people are very antagonistic  
to railroad interests." Better start work on  
the Union Stateion in Seattle; people there are  
beginning to be impatient.
