

New York City - Social Conditions 12/1/1900

J.S. Kennedy to Hill

Has been put on Citizens Committee of 15 to try to do something to relieve the city from the reproach she now rests under of evil resorts of every description being conducted openly and under the auspices and protection of the police. Has given Urey some photographs of himself and believes his portrait will be finished in about three weeks. [Evidently Hill was paying for the portrait].
