

Nor. Pac. Road - Reorganization July 17, 1895

Hill to Jacob Schiff

"Montana Central being a corporation of that state it could do all the things necessary provided we can guarantee the Mont. Cent. by the Gt. Northern or if the stock of the Nor.Pac. new Company was held by the Mont. Central it might cover the objection of the Gt.Northern being the holding Co.... C.B.Wright of Helena and some of the old Nor.Pac. party are actively interested in keeping the local offices advised that the stockholders are going to keep the property in the hands of the Receivers indefinitely or until they can get the interest charges greatly reduced when they will offer a plan of reorganization." I am glad you are of the opinion

that Mr. Adams desires the London plan to go through. I have long ca' s from London to the same effect including pa. cularly the Berlin people.
