Re N. Pacific rates: "This Fall, the political campaigns from Lake Superior to the Pacific Coast are being made practically by both parties on railway rates and railway taxation." So ~~ZZZZZZZZ~~ whichever party wins, result will be to reduce rates. N.P.'s land grant is used for advocacy of increased taxation, though it already has so high a tax as to almost destroy its value. N.P. ought to reduce its stocks at least to \$100,000,000 as against \$155,000,000 at present.
