

Hill, J.J.- Views on banking October 4, 1901

A.B.Stickney, pres. Chicago Great Western to JJ]
Re address to American Banking Association
convention recommending a new banking set-up
for United States. [Hill writes in pencil on
the letter that he has "long considered our
present National Bany System ... based on
entirely wrong ground" without "flexibility
& leaves the country without a currency which
can adjust itself to its business needs."]See
also his carbon to Stickney on Oct. 12, 1901
