June 1, 1916

J. Scotten to Louis W. Hill.

"and to you confidentially I desire to make this suggestion. Should it develop, as you feared in your talk yesterday, that your Father left no will, your worthy Mother possessing as she does the love and confidence of all ~~the~~ her children, should immediately request all to join in a trust deed, thus holding intact and properly safeguarding the whole Estate as well as the individual interests of each and every person."
