Re Gov. Van Sant's attitude re incorporating the Northern Securities Co. Urges the railroads to keep silent - a mistake for Mellen to ask Severance (of Kellogg & Severance law firm) to go to see the governor "and I suppose argue with him that he is wrong." "Mr. Mellen has also asked Tim Burns to use his influence with the governor." Enclosed clipping re case and "governor will ask the attorney to bring suit against association" and "will call extra session of the legislature if expedient."
