

Oregon - Railroads

June 14, 1910

Hill to George F. Baker

Re Oregon matters; road in Willamette Valley and the Tillamook country; finest kind of timber there; "I have arranged with Mr. Elliott to put our auditor of Disbursements with the Northern Pacific auditor to check up all the Spokand, Portland and Seattle Railway accounts There has been a great deal of money spent which can never be recovered... If I had at all supposed that the construction was being carried on "that way I would have tried to have cured it at the time.. On the whole it is the most unsatisfactory thing that has occurred in my experience." LetterBook, 3/17/10-5/26/11
