

Probst, J.H.

September 27, 1906

J. H. Probst to J. J. ~~Toomey~~

Is proceeding quietly with the work at the mine, [Valley, Wash.] States that he has just "discussed with the Surveyor the amount of work we can actually show after Davy's shaft is pumped out & cleaned out," and that he "wanted to make sure that we can show enough work, to obtain patent, before we start on the survey."
