November 2, 1898

J.H.Probst to W. C.Toomey.

Discusses his duties as follows:

"In addition to my regular duties I am now engaged in examining the titles to the Company's [Great Northern Road] lands, saving some pieces that were as good as lost, tracing defects in others and devising means to perfect the titles. This is not clerical work, it requires a thorough knowledge of title and tax matters and has heretofore been attended [sic] to by the Company's attorney."
