

Railroads - Propaganda

May 28, 1906

S. Spencer to Hill

Encloses outline of Publicity Bureau, the purpose of which would be to inform the public on railway questions. "in order to meet when and as necessary the propaganda that are certain to be continued by Mr. E. P. Bacon and his associates and others in their efforts to inflame the public mind against carrier corporations. That such propaganda will be continued there can be no doubt, in view of the utterances of the Secretary of Mr. Bacon's Interstate Commerce Law Convention."
