

Rogers, Elias

April 23, 1908

Elias Rogers to James J. Hill.

"The Dominion Coal Company, as you are probably aware, are the largest producers of coal in Nova Scotia, and have been the most influential factor in all Canada with reference to the duty on coal coming into Canada. From information I have, I am quite confident that the present would be an opportune time to obtain reciprocity in coal as between the United States and Canada, so far as Canada is concerned."
