

St. Anthony Falls Water Power Co. Feb. 25, 1886

Hill to R.B. Angus, Montreal

"In 1868 the St. Anthony Falls Water Power Company ... deeded some property on east side to the city for a market square. The city now desires to use this property for a permanent exhibition building" & want a quit claim deed, "relinquishing any right of reversion that might arise from the property not being used as a market square. It is of much more advantage to our property on the East side that these lots should be used for exhibition purposes." Please consult Mr. [Donald] Smith and Sir George [Stephen] and wire me.
