

St. Cloud, Mankato & Austin Road May 1, 1884

Hill to P. M. Myers, Milwaukee

"Have seen Gen. Bishop and if it is decided to go on, we will build our portion under the St. Cloud, Mankato and Austin, with the agreement that the same will be conveyed to us when built, together with all bonds or bonuses dividing at Hutchinson and running north to our point of intersection with present main line. The same rule to apply to the portion from Hutchinson south to your line." Probably Gen. Bishop will do the building.
