

Sand Coulee Mine

September 6, 1889

Hill to H. C. Ives, General Manager, Helena

Re outlook for business. "The largest increase you can get from any one source is from the extensive introduction of the Sand Coulee coal to the Butte market; at the price of \$2.00 at the mines and \$2.50 freight or \$4.50 delivered at Butte, you should be able to handle fifteen or twenty cars a day."

JJH LetterBook, 2/15/89 - 10/23/89, p. 537
